

## **Innovation Award Architecture+ Building - the award winners have been selected**

- A competition initiated by the architectural journal AIT and AIT-Dialog in cooperation with BAU 2025, Messe München / January 13<sup>th</sup> to 17<sup>th</sup>
- Two Innovation Awards, five Special Mentions and four Mentions awarded

For the 16th time the architectural journal AIT and AIT-Dialog in cooperation with Messe München GmbH, initiated the Innovation Award Architecture+ Building during the BAU fair in Munich. The Innovation Award is intended for manufacturers of innovative products and materials for the complete contract, industrial building segment and for residential construction, as well as for architects, interior designers and designers who work in these areas and have developed associated products. Participation was open to all exhibitors at the BAU who had registered their products for the Innovation Award Architecture+ Building.

The design and architecture award is initiated to honor products that correspond to the requirements of architects to a special degree. The prize recognizes conceptual project-specific solutions and selected products, which satisfy in design and functionality. Important assessment criteria are the authenticity of materials and the variety of application. This year a total of 32 companies with 43 products were participating.

A jury of renowned architects and interior designers decided upon the winners and special mentions on January 13<sup>th</sup>, 2025, the opening day of BAU 2025:
